EUR	-€62	-€38	-€100	€796	€10,696
%	-0.62%	-0.38%	-1%	7.96%	6.96%

6. COMMISSIONS PAID TO AGENTS AND FINANCIAL INSTITUTIONS

Finax pays a commission to agents and financial institutions from the portfolio management fee, in case when the financial agent is able to demonstrate an increase in the quality of the services provided to the client by the Broker. The amount of the commission depends on the number of services increasing the quality of the services provided by the Broker. The average commission for the independent financial agent, tied financial agent, and financial institution is 25% of the ongoing portfolio management fee for the provision of two additional services, 35% for the provision of three services, and 50% for the provision of at least four services. The commission for a tied financial agent is 20% of the ongoing portfolio management fee for the provision of two additional services, 30% for the provision of three services, and 40% for the provision of at least four services. The commission of the independent financial agent, tied investment agent, and financial institution for the services referred to in Article 4 is 40% for the provision of two additional services by the financial agent. The remuneration of the tied financial agent for the services referred to in Article 4 is 30% for the provision of two additional services by the tied financial agent. The exact commission amount is quoted in regular statements that the Broker provides to its clients.

7. COMMON PROVISIONS

Prices for other services not listed in the Price List are negotiated individually. Finax reserves the right to agree with the Client on the individual amount of the charge specified in items 1., 2. and 4. of this Price List.

The fee for the provision of investment advisory to the Client by a financial agent or financial institution may be charged to the Client's asset account held with the Broker. The Client will be informed of the amount of the fee by the Financial Agent prior to the provision of the service. The Client may choose the method of repayment of the investment advisory fee as follows::

- a) Express - paid in a one-off upfront payment
- b) Accelerated - payable continuously in the amount of 50% of the value of the monthly deposit
- c) Standard - payable continuously according to the percentage of the fee

If the volume of deposits in the Client's property account exceeds the Target Savings Amount, the Client will be charged an investment advisory fee on the additional deposits in the agreed percentage amount in the Standard manner, unless otherwise contractually agreed.

The portfolio management fee is calculated on the average volume of securities and funds held by the Client within a given month. The Portfolio Management Fee is payable monthly on the last day of the month.

Finax will charge a fee for matching a client's payment without identification only after repeatedly prompting the client to set up the transfer order in the bank correctly so that the client's asset account to which the payment should be credited can be identified.

Finax reserves the right to change the Price List. This Price List of Services is valid on the date of signing the Agreement between the Client and Finax, o.c.p., a.s. or in accordance with the General Terms and Conditions in the event of a change to the Price List of Services.
