

PRINCIPLES OF INVOLVEMENT IN THE EXERCISE OF SHAREHOLDER RIGHTS

Finax, o.c.p., a.s., within the equity component of the investment strategy of the portfolio management service, invests funds primarily in so-called ETFs (Exchange Traded Funds), alternatively in shares of funds of foreign asset managers.

Finax, o.c.p., a.s. does not make any direct investments in stocks via managed portfolios. For these reasons, in accordance with Section 78(2)(b) of Act No. 566/2001 Coll. on Securities and Investment Services (Securities Act) and Amendments to Certain Acts, it has decided not to develop Principles of Involvement in the Exercise of Shareholder Rights.
